and Welfare
Bethesda, Maryland 20014

Reference: Grant No. CA 16896

Gentlemen:

On behalf of Stanford University, I am pleased to submit a competing renewal application for continued research grant support of a project entitled "Genetics of Bacteria." The project's principal investigator is Professor Joshua Lederberg, Department of Genetics. Additional copies of the application and supporting materials are enclosed.

Funding is requested for a total project period of five years, commencing May 1, 1977. The direct costs requested for the total project period are \$464,669. The direct costs requested for the initial year of support are \$80,000.

This application does not include activities involving human subjects.

This competing renewal application has the endorsement of the University's administration. Should you need additional information, please call me at (415) 497-2883. We look forward to favorable council review and the prospect of continued funding.

Sincerely,

D'Ann B. Downey
Sponsored Projects Officer
